MCWS 2

Piece counting/weighing machine

Piece counting/weighing machine particularly indicated for weighing small and medium size hardware such as nails, screws, nuts, bolts, plastic, aluminium casts and miscellaneous small parts. The micro-processor constantly monitors the weighing system to guarantee the set dose at maximum speed.

Weighing range

From 100 g to 7 kg

Product range

Small and medium size hardware

Maximum product length

100 mm

Speed

Up to 20 cycles/min

Weighing basket sensitivity

0.2 g

TECHNICAL FEATURES

- Bearing structure in painted steel with sliding chutes in Fe coated in high-density polyethylene. Stainless steel AISI 304 sliding chutes are available on request.
- Load hopper capacity of about 40 litres.
- Pre-feeder vibrating chute controlled by a tilting device or photocell.
- Intermediate vibrating chute designed to ensure consistent feeding to the roughing chute.
- Roughing vibrating chute with pneumatic controlled closure curtain.
- Finishing device with separate counting module.
- 12 litre weighing basket with pneumatic opening.
- Weighing head with mechanically protected load cell.
- Possibility of memorising different programmes to suit various products.
- Possibility of linking it to other machines (bags, sacks, boxes, KLT).
- Machine built according to CE Standards.
